

bill 457 and bill 738

Each town should handle their budget issues on their own.
Combining districts just hides the local problem and can “pollute” a good district with a bad district decisions.

Also, the smaller district will never be represented fairly.
Sorry, to clarify my position...I’m against both these bills.

Also, it would be nice to know how these bills would improve the education of our kids...seems like budget and union issues drive this , nothing on improving education, sad.

Best regards
