

Bill 457 and Bill 738 - Steven Fournier Waterbury Ct

I am a resident of the City of Waterbury, and I oppose these bills.

I feel it would be impossible for me as a city resident to understand the needs and educational concerns of our bordering neighbors school districts. Nor, would I expect or want residents of say Wolcott or Prospect to have a say in how we use our resources here in the Waterbury school system. These bills could harm the Brass City more than help it. We'd be sharing our tax funded resources with schools outside our city limits with potentially multiple Towns that border us. While, I agree in emergency situations this would be completely fine; I simply do not feel we should be spreading our cities student population or resources across townships because we were not able to solve our own problems and vice versa.

Respectfully,
Steven Fournier
