Lawmakers of the State of Connecticut:

Please accept this as our personal testimony in opposition of SB 738, SB 457, SB 874, and any other bill set forth in an effort to promote regionalization in the State of Connecticut.

While we would have attended the Public Hearing on Friday, we are unable to because we are both Public School Teachers in Connecticut. Additionally, we are unable to provide specific reasons for our strong opposition because it is currently composing progress reports and conferencing with our parents and families, so time is limited.

At a later time, we will compose a thoughtful letter that outlines our specific concerns.

Sincerely,

Meghan M Gagnard

David Gagnard
