

Bill 457 and Bill 738

I am absolutely against the regionalization of towns in Connecticut. I moved out of Torrington because of the terrible city it has become. The last thing I would want is my child regionalized with Torrington.

We moved back to New Hartford, where I was raised, to provide our children with the small town feel and dedicated educational systems. If Connecticut were to pass this bill I think I would consider leaving the state like a lot of others already have.
