

Hello -

I am writing to formally let you know that I fundamentally oppose the proposed legislation that would impose regionalization of school districts based on either the number of students per district ([S.B. 457](#)) or the total population of towns and cities ([S.B. 738](#)). In addition, I oppose the third bill that would establish a commission charged with developing a plan for the regional consolidation of school districts ([S.B. 874](#)).

These bills represent a dismantling of the current educational system in our state and would significantly alter the educational experience for our children in our schools.

Thank you,

Chris and Abby Glover
New Canaan, CT
