

Bill 457 and Bill 738

As a former teacher in the City of Hartford (38 yrs) I see this as another move to the left, to the Government controlling edu (and the minds of children) more than it already does. Common Core was really Commie Core. I know. I was there.

Thank you for your efforts.

Statement of Purpose: To **require** certain small school districts to create new or join existing regional school districts <---read force them into gov't control

Statement of Purpose: To create a more efficient educational system <--- Now THAT is a joke. When has the GOVERNMENT ever 'created' anything efficient.

More people should read these bills. One outrage after another.
