

Senate Bills 457 and 738

The only ones that will succeed with forced school regionalization are the consultants you hire to perform the analysis and prepare the presentations! Likely these people will not live in the target areas and couldn't care less what impact it has on CT towns! Why don't you people focus on making CT attractive to live in, and grow the population! Just like in business, you must grow sales, not just focus on reducing costs. If CT had 4 million population, there would be a larger tax base to solve all the budget problems!

Wake up!

Martin Katz, Wilton
