

Good Afternoon,

I strongly oppose Bills 457 and 738 to regionalize the school districts in Connecticut. My husband and I have worked very hard over the course of ten years to move from a bigger town in Connecticut to Bridgewater, CT where I grew up. Our dream was for our children, who are now 4 and 2, with a third on the way, to grown up in a small community where we could make a difference. Having our young children ride the bus for 30 minutes or more to a larger town is unacceptable. We have worked way to hard to save up money and buy a foreclosure to fix up and become part of our community. We should have a choice in this matter.

Thank you for your time,

Rebecca Langanke
