

2/24/2019

Dear Senators and Representatives,

We are disturbed by the proposed bill to regionalize schools. We strongly oppose the idea of forced regionalization. This will degrade our education quality and bring down our property value. We moved from New York to Wilton, Connecticut five years ago for the quality of the school system. This will negatively impact the education that our three children will receive, and force us to reconsider our decision to move to Connecticut.

Sincerely,

Jacquelyn and Benjamin Levenherz
