

# Opposition to SB 738, SB 457, and SB 874

I completely reject any forced regionalization of our public schools, through acts of our state legislature or other means including so called "incentives" which is just another forced measure through higher taxation!

This heavy hand approach will destroy our towns, ruin our schools and actually reduce the amount of monies collected through taxation by causing higher salaried constituents to flee the state!

Why are you proposing these bills? It is by no means for the wellbeing or benefit of the citizens of CT. These actions will not solve the State Worker Pension crisis our town faces.

**KEEP YOUR HANDS OFF OUR SCHOOLS!**
