7th grader at Madison Middle School Trumbull, CT

Hi - my name is Siena McGeachy. I am a 7th grader at Madison Middle School in Trumbull CT

I am against regionalization of the schools. I started in Trumbull Schools when I was 3. I was fortunate to be a role model at TECEC. I met one of my closest friends Lily there. We both continued to elementary school and middle. We are not in the same schools but stayed friends because of our love for soccer. We are currently on the same team and look forward to playing together in High School. But adding more kids to our schools could prevent that.

But more concerning is the TECEC program my twin sister and I attended. What would happen to that if schools Trumbull had to regionalize? Again I was a role model as was my twin but our classes were 1:2 model to: special needs. Not sure who was who but going through the school system, we are a close knit group. There is more to school than money. Please keep our schools the safe environment we like in the community that keeps us close.

Sincerely,

Siena McGeachy
