

February 20, 2019

Dear Connecticut State and Legislative leaders,

We are writing you to express our vehement opposition to school regionalization as proposed in SB457 and SB738, and also as proposed by Governor Lamont through the reduction of non-complying districts' Education Sharing grants.

We moved to Connecticut from the Boston area ten years ago in search of a small town with excellent schools and local governance. In Weston, we have found a strong community with outstanding schools. We treasure our community and plan to remain as taxpayers and citizens long after our children graduate. If these bills or similar bills pass, however, we will likely sell our home and leave the state.

We urge you to strike down these bills and to vote no for school regionalization.

Sincerely,

Kathleen B. Moore
