

To whom it may concern,

Thank you for your work on these important issues.

I vote **NO** on the 3 bills SB 874, SB 457 and SB 738.

Wilton has worked very hard to get the schools to perform at such a high level in the state and the residents are paying for it to be so. I see nothing in these bills that will improve our current system. I also see nothing that convinces me that the cost savings are so compelling to make the adjustment....this is key to selling it to the public. Real Estate (at the high end of the market) in this area is struggling and these bills if passed will, I believe, only make it worse.

Bring the budget in line in ways that improve our lives.

RN
