

Bill Number: 457 & 738
James and Jennifer Nickle
Bethany, CT 06524

We oppose the above bills that force regionalization of our school district.

Over five years ago we moved to this town so we may provide a top primary and secondary schooling for our children. Our children are both in Bethany Community School and they are doing very well in this demanding school. In return we both work and pay our property tax to support our district.

If you want a study, study these school districts and learn what they do well. Mirror their success instead of tearing it apart.

We oppose the above bills that force regionalization of our school district.
