To Whom It May Concern,

I'm writing to say that I am against the regionalization of schools. My main concern is the length of time students will have to spend on the bus. It currently takes between 20-30 minutes for my children to get home from their schools that are approximately only 1 - 5 minutes away. A school in another town would take at least an hour or more to get home. I do not find this acceptable, especially for young children and especially on hot days because buses have no air conditioners.

Thank you,
