

I do not agree with forcing the regionalizing of school districts in CT. There is a reason I bought a home in Suffield, CT and not in Windsor locks or any other town. I pay a lot of taxes and paid more for my house than if it were in another town because I wanted my future children to go to the Suffield school system, not to a huge regional school.

What will happen to the voag program in Suffield if we are consolidated and sent to Bloomfield or any other town?

I don't want to drive to another town to watch him/her play a sport, perform in a show, for parent teacher conferences, to pick my kid up if they get sick, or any other school related issue/event. I made a huge choice in where to buy my home and I did that knowing the school system I was choosing.

Please do not let this happen to us.
