

**SB 738 SB 457 and SB 874 BILL/SCHOOL REGIONALIZATION**

With many online conversations/comments about school regionalization, we would like to add to the list of voices which want to be heard opposing such a big change.

Our town of Wilton provides a high quality education which acts as an attracting factor making people move to town despite of high taxes. Any changes made to this current scenario will jeopardize the future of all kids in district.

Education system should not be a deterrent factor in future careers of our children. Our community needs a strong base and it starts with a solid schooling background for our kids to thrive and grow up with.
