

Bill 457 and Bill 738

Regionalization would be a tragedy for the smaller communities such as Sherman.

There appears to be no proof that this would help our state fiscally.

Why not direct new tax revenue streams to those more challenged areas than impacting students by making larger. Take your toll taxes or newly taxed luxury items and put the funding there.

This will impact a smaller group of urban communities to the detriment of the whole.

This is a horrible approach to trying to solve our states financial crisis.

Please vote no to school district regionalization.
