

S.B. 738 & S.B. 457 - Opposition to School Consolidation

Good Morning,

I am writing to voice my opposition to the proposed forced consolidation of school districts.

It is my opinion that school districts should not be forced to consolidate. Smaller districts already leverage benefits from consolidating services with neighboring districts, as they see beneficial, and control should remain with the districts to determine the best course of action. The State of CT should, at no time, force districts to consolidate. Local control of school districts benefits students, residents and towns, and the State should NOT mandate school consolidation.

Thank you,
