

Bills 457 and 738

I live in Granby, CT. Have no children in the school system (retired). However, this proposal is an Absolutely NOT! to our family.

The State needs to back off. The more control the State has, the less control is in the hands of the local taxpayer.

According to distances, Granby would be "lumped" with Canton, Simsbury and Avon. That is a lot of land mass. We are rural. too much travel time on buses. Think of the possibility of high school kids driving that distance daily (more chances of accidents).

Besides, I think I just read something that denotes my town has better scores than Avon.
