

No to Bills SB738, SB457, & SB874

We are against the study and implementation of CT forced school regionalization. These bills, if passed, would seriously, negatively impact our students in the Ridgefield school district and will yield very little state cost savings compared to the state average subsidies.

Focus on saving money in the school districts that receive the highest state subsidies. Hartford averages \$17k state subsidy per student compared to Ridgefield at \$3.5k.
