

Bill 457 and Bill 738

I am writing to express my unqualified opposition to the above-referenced bill. The Democrats in the State of Connecticut are continuing their policy of punishing the hard-working, overtaxed middle class citizens in the State and destroying the rights of the residents of each Town to determine what kind of public schools their children will attend. This is the last straw. If this bill passes, I will exit Connecticut rather than stay and continue to subject my rights and finances to the out-of-control state legislature. What a disgrace and fiasco.
