

Reaching out with our position on the two bills. We are against both. We moved to our town for the school district. In fact, we left our other town after living there for 14 years, once our daughter was school aged.

My husband and myself work very hard, we saved our money to move, we live below our means, we pay our taxes, we give to charities and volunteer. Don't take what many have worked their entire lives for, don't take our schools, and don't hurt our property values.

Many other poor state government decisions have been made, please don't make this one, you'll lose another family to another state that will welcome us with open arms.

Thank you,  
Adam & Allison Bonoff
