RE: SB 738, SB457, SB874

I moved to Wilton, CT in 1995 so my children would benefit from the excellent school system, and they both are graduates of the public High School here. I am firmly against the idea on consolidating districts as I believe schools should be locally controlled and funded.

I think that Connecticut's excellent schools, are one of the few remaining attractions of our state to corporations that would locate here. By taking that away, we will cause further corporate flight to other states.

Respectfully,
Maya Boreen
