Re: S.B 457, S.B 738, S.B874

Dear Legislators,

I strongly urge you to oppose the referenced Bills under discussion which call for sweeping reorganizational changes in education offered by local school districts in the Nutmeg State.

Connecticut, especially Fairfield County is already under stress in the real estate market as being a less than desirable place to live. One of the few attractions are the fine schools that exist, again, especially in Fairfield County. If legislators are concerned about declining enrollments causing inefficiencies in how education is offered, perhaps you should concentrate on lowering taxes and fixing transportation infrastructure which will attract more people to the Connecticut!

I am a registered independent, having voted for both sides of the aisle. These Bills (S.B 457, S.B 738, S.B874) forcing regionalization seem senseless to me when there are so many other problems for the State Houses and Governor to concern themselves.

Respectfully,

Susan Carroll
