

I am writing today to express my complete opposition to the senate bill 457, senate bill 738 and governors bill SB 874. This is not okay to do to our town and most importantly to our students. We live in a small town for a reason and send out kids to these schools for a reason. This is horrific and no acceptable. There is not one person I have spoken to that agrees with any of this. I will fight and gather people to fight this for our kids and our communities. I am heartbroken that this is even a discussion.

Best,

Katie Colburn
