Dear Education Committee Members,

Eleven years ago I moved to Brookfield with my infant daughter. My husband and I looked for a home in a town with high quality schools. Now we have three children in Brookfield schools.

I do not support Senate Bill 738 and 457. It will ruin the character of the towns we live in. Also, Brookfield, New Milford, New Fairfield and Sherman are dissected by Candlewood Lake. Transportation would be a nightmare and children would be on a bus for close to an hour each way traveling around the lake.

These bills should be abandoned and the individual towns should support their school systems.

Respectfully Submitted,

Irene Corea

Brookfield, CT resident, taxpayer and voter
