

“Bill 457 and Bill 738”

Please vote no on regionalization of the schools, we do not need larger schools, part of the reason there was a shooting in Parklane is that the school was too large to effectively secure the buildings. There is a lot to be said for small schools with lifelong friends that you develop. I went to a small school and then in my junior and senior year transition to a school of over a 1000 students, I never felt as if I fit in and to this day have no long term friends from my high school. I am not in favor of this recommendation

Thank you
