

To whom it may concern,

This communication is submitted with regard to Senate Bills 454, 738, and 874. There is no evidence these proposals will result in financial economies for the communities; they are likely to degrade the local education system. As a Weston, CT resident, tax payer, and parent of Weston Schools students, I am fully opposed to the proposed bills and will contribute in the form of votes, support, and political contributions to efforts opposing these proposals.

Sincerely,

Lisa Feliciano  
Weston, CT 06883
