

To Whom it may Concern,

Please consider NOT to merge our school district with an other one. I'm sure you have heard the basic reasons from many other Wilton residents and how the merge would cause property prices to drop, lower the quality of education and so on.

I'm approaching you as a single mom of two sons (4th and 7th graders) with a full time job and next to no extra help. After a divorce I stayed in this town because of the school system and the great quality of education that it provides. This isn't the cheapest town to live in as we all know it. I need to work to support my boys so I need all that excellence that the schools give to GIVE MY CHILDREN THE BEST CHANCE! My youngest one is in the special education program- having dyslexia. Him ( or we) couldn't battle these obstacles without the schools' help and without his wonderful teachers and specialists and psychologists.

Again, we are in this town because of the schools. And that's what we pay OUR taxes for.

This is our town, our home, our taxes, our schools and our children.

HANDS OFF OUR SCHOOLS!!!

Thank you,

Sincerely,

Timi Fletcher
