

Good afternoon,

I am writing in opposition to SB 738 regarding the creation of regional school districts. I live in the town of Cromwell and have two small children -one in elementary and one in the intermediate school. My children have benefitted from smaller classrooms and the attention the teachers provide to each and every student. My concern is that the quality my child's education would decline if schools were regionalized. This could result in schools closing, qualified staff losing positions, and the climate and environment of our schools changing. We choose to stay in Cromwell for a lot of reasons, and the quality of our school system is paramount. Please consider the impact on our children and their education when making a decision to regionalize schools in an effort to save money.

Thank you,

Beth Fresa
