

This letter is in reference to: SB 738, SB 457, and SB 874,

I am a single mother who moved to Wilton, CT for the excellent schools and education that my children receive. My son with special needs has been able to slowly achieve his goals and reach his fullest potential. This fall, my twins will be entering high school.

Our community has already been suffering with high property taxes. Forcing schools combine will have a negative impact on both social and economic success for our children, town, property, schools and businesses.

I oppose all three bills on school regionalization currently before the legislature: SB 738, SB 457, and SB 874; and any proposal, study or commission that opens the door to forced regionalization of our schools.

L. Angela Goncalves

Wilton, CT
