

I will keep this short for your sake. I strongly oppose the enactment of PSB-738 and PSB-457. Although my children are married and no longer attend Wilton schools, this is not a personal issue but it is an issue of how best to serve our new population of young people.

The reason we moved to Wilton 34 years ago was because of its excellent school system. Penalizing a community with a smaller student population will eliminate small classrooms where children can excel. I know if I was thinking of moving to Wilton now, I WOULD NOT DO SO. This will kill home values and harm our school system.
