Re: SB 738, SB 457, and SB 874 – OPPOSED

Dear Legislators,

We are writing to voice our adamant opposition to the proposed Schools Regionalisation bills before the CT lawmakers. There is no conceivable benefit to the proposals and in fact they would gravely harm the economic health of Southwest CT, the economic engine of CT. We are also opposed to any study of the plan as it would be a waste of resources that could be better deployed by our representatives to develop a realistic plan that would significantly improve CTs financial health and future.

Thank you for entering our opposition to all 3 proposals and any related studies into the record.
