

My name is Kim Sapia and I am writing this in concern regarding **Senate Bill 457, Sentate bill 738 , and Gonvors Bill SB 874**. I am a resident of Old Lyme, a town that has already been regionalized with Lyme. We have already done this. And do not fee that it is necessary in anyway to do it again. **I am 100% against all of these bills.**

One reason we moved to Old lyme was for their school system and the small town feel. The class sizes are wonderful and just large enough that the children get the attention they need without getting lost in the crowd. As a mother of 3 young children this is important to me. I do not want my children to get on a bus and be on a bus for over an hour plus or more to get to school in the morning. In the area where we live things are already spread out enough that my children are on the bus for 40 mins. This whole program is not going to save anyone taxes or money it is only going to increase them. To mandate this without any data is just plan absurd. I don't understand why the state is "trying " to save money by sacrificing education. None of these bills should be passed.
