

To whomsoever it may concern

This is regarding SB 738 SB 457 and SB 874. We are hard working parents of 3 kids and the primary reason we moved to Wilton is for the school district. Wilton provides exceptional education for the students in the district. I would strongly urge politicians not to change this unique school system by merging with Norwalk.

This school regionalization bill is going to dilute the school district value without saving anything for the government. I would urge governor and senators to work on bills which would encourage companies to move to CT. Please work on a plan increase revenue rather than reduce cost by merging school district.

Thanks
