

February 24, 2019

To the Education Committee:

As a resident of Wilton, CT, I am highly opposed to the concept of forced regionalization of our education system. Regionalization will lead to a degradation of education quality and property values here in Wilton. We moved here for the schools, for the WILTON schools, not for the Norwalk schools. There is no evidence that school regionalization will lead to any cost savings. I find it abhorrent that members of our government have let the State fall into such economic despair, and now want to solve the problem by hurting our children.

I urge you to oppose SB 454/738 and SB 431.

Sincerely,

Lindsay A. Sheehy, Esq.

Wilton, CT
