

Bills SB 874, SB 738 and SB 457

I am writing you to express my complete opposition to these 3 proposed bills.

I recently moved to Wilton from Manhattan for the school and was willing to pay the increased property taxes in Wilton to do so.

The proposal of these ridiculous socialist Bills SB 874, SB 738 and SB 457 is an outrage. It would destroy my child's education and my property value. Even the thought of these Bills getting any consideration by the legislation makes me seriously doubt my decision to move here.

Please note that myself and many others have expressed their feelings that should any of these proposed bills be passed, or any other bill that requires regionalization if our schools, we would be 100% assured to move out of this state.
