## Written Testimony

From

Joyce M. Stille, Administrative Officer

Town Of Bolton

For

Education Committee

March 1, 2019

### **Re: Proposed SB-738 An Act Concerning The Creation of Regional School Districts**

Thank you for the opportunity to submit testimony in **opposition to SB-738, AN ACT CONCERNING THE CREATION OF REGIONAL SCHOOL DISTRICTS**, which mandates the consolidation of small school districts with fewer than 2,000 students and penalizes small school districts such as Bolton.

The legislation, as drafted, mandates a plan for redistricting or consolidation of school districts. Forced consolidation or regionalization is rarely successful. This is especially troubling since what is best for improving student outcomes should be the first consideration. Bigger does not mean better, nor does bigger guarantee any savings. Transportation costs alone will drive up education costs. Our geographic size does not have an impact on feasibility.

Bolton is one of the smaller school districts this bill would impact. Our pre-kindergarten through 12<sup>th</sup> grade system has just under 800 students. Currently, Bolton has two sending districts (Hartford and Columbia) that are part of our educational system. The quality of our Town's educational system is high. Bolton High School has been designated nationally a Blue Ribbon school. Residents have stated that they have moved to Bolton because of our school system. To dismantle it does not make sense based on the provisions of this bill. Our schools are a vital part of our community.

We fully support shared services and regional approaches but they need to be fully vetted and voluntary. In education, the end result needs to demonstrate cost savings while preserving or improving the quality of education. We would welcome the opportunity for discussion on our current educational system compared to other systems and regional systems. Even current regional school districts operate very differently. A "best practices" should be developed from the ground up that can serve as a guide. Outlining items that work or fail will only enhance consolidation/redistricting efforts.

In addition to our comments above, please consider giving us additional tools to control education costs. First, provide town's direct ability to consolidate non-education expenditures to

achieve cost savings. Second, eliminate the Minimum Budget Requirement. The way it continues to be administered makes it impossible for us to reduce education costs.

Please reject SB-738 and support measures that back voluntary shared services and regional approaches in a collaborative manner. The quality of our educational system needs to be preserved.

Please feel free to contact me with any questions or if you wish to discuss further.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Joyce M. Stille", with a long horizontal flourish extending to the right.

Joyce M. Stille
