Erin Trepanier  
New Canaan, CT

Connecticut is in deep trouble. People are leaving the state in droves. As a resident of New Canaan, I am extremely concerned for my property value. I pay high taxes to live in my town. I moved here for the school system. If you redistrict, I will be forced to move. I cannot have my daughter, who has special needs, be in any school that is struggling to perform.

I pay to live in New Canaan. I didn't pay to live in Norwalk. If I wanted to live in Norwalk, I would have bought in Norwalk. If I wanted my children to go to Norwalk schools, I would have bought my house in Norwalk.

I am fully informed on what redistricting means. It is not limited to administrative. It goes far beyond that.

Democrats have destroyed Connecticut. Their failures to run this state will not be to my detriment. If you redistrict, you are devaluing my property and putting my child's special education needs at risk. I will not tolerate that. I will sue the state. I will move.

The leadership of this state failed its people. They pushed out major companies because of our horrible taxes and the state suffered for it. Now, because of that horrible decision, the states response is to squeeze our schools to pay for Connecticut's bloated pensions and our out of control debt?

I will not accept that.

If they redistrict, be prepared for mass migration.
