

Regarding the proposed legislation to Regionalize Connecticut School Districts:

To Whom It May Concern,

When a job change brought us to the New York City Metropolitan area from California, we chose New Canaan over towns in Westchester County, NY and neighboring towns in Connecticut because the school system here is the best. The parents are involved and the District is run by top professionals who are vested in our children's success. Real estate is already down in this state and will only continue to decline if we cannot count on having an impact on the way our schools are run. Quite simply, people will move away from here if there is regionalization of the school districts.

Listen to the people you are affecting: NO REGIONALIZATION!
