

In Opposition to Governor's Bill No.874 - An Act Concerning Education Initiatives and Services in Connecticut.

My name is Mason Avery and I am a homeschooling 4th grader in Fairfield County. I am writing to express my opposition to the Governor's Bill No. 874, particularly Section 17 (pages 20-21), making changes to Section 10-184, and Section 18 (pages 21-22), making changes to Section 10-1600.

I feel that the need for registration is not a problem as a homeschooler. I am concerned that once homeschoolers have to register, that more laws and regulations could be added on to that regulation which would affect my freedom to learn.

In conclusion: I don't think we need it and we have more important problems in our state.
