

In Opposition to Governor's Bill No.874 - An Act Concerning Education Initiatives and Services in Connecticut

My name is Regan Avery and I am a parent educator in Fairfield County. I am writing to express my opposition to the Governor's Bill No. 874, particularly Section 17 (pages 20-21), making changes to Section 10-184, and Section 18 (pages 21-22), making changes to Section 10-1600.

In my five years of homeschooling in Fairfield County, I have not needed anything from my school district. Having to register with them is an unnecessary burden. The bill does not state any reason for the registration or how it would benefit families. Additionally, I have privacy concerns about the idea of registration, since there was no mention in the bill of how personal data would be used or protected by the school district or state.

Sincerely,
Regan Avery
