

Dear Sir or Madam,

Regarding SB-874, sections 17 and 18 I urge you to vote no. Protect education choices for those of us that strive for more than our public schools are providing. Asking us to register and be approved in order to home educate is just the beginning of possible restrictions that would ultimately force us to follow curriculum and standards that are not working. Help keep our freedom of tailoring our children's education to their future careers and ambitions.

Sincerely,
Heather Clemence
