

I am writing today to express my adamant opposition to the Senate Bill 457, Senate Bill 738 and Governors Bill 874.

I have been a taxpayer in the small town I live in for forty years. We moved here from New York to raise our family in a small community & especially to afford our children the opportunity to be educated in a small, personal atmosphere. Two of our three grown children are now employed by this very district. I want the same opportunities for our grandchildren. They deserve to have the same attention & experiences. We must be allowed to make these life style choices! If these bills are passed, we will have to consider leaving this state that we have loved for so long.

Sincerely,

---

BJ COLBURN
