

Dear Education Committee:

My Name is Kathleen Conway. I am writing to oppose SB-874, particularly sections 17 and 18.

I have the legal right to educate my children. We use curriculum that meets the needs of our children. We put our hearts and souls into educating our children academically, emotionally, socially, and spiritually, and they are thriving.

I request, as a citizen of CT, that you not support this bill or any current or future amendments to this bill.

Sincerely,

Kathleen Conway
