

RE Senate Bill 457, 738, and 874

To whom it may concern,

I am opposed to the bills above. This is just another attempt to further destroy Connecticut by our politicians. I have lived in CT and raised my kids here. At this point every day, I see our values erode thru a massive redistribution of wealth tax programs and handouts for those who refuse to work. How about reducing the handout and trying to preserve what little CT has left.

These bill are just another nail in the coffin for CT.
