

Governor's bill, SB874

One of the reason I moved to this state from Colorado, is because of the Homeschool Laws. It is important that parents have the right to choose how are kids grow up.

Please leave the choice up to the parents. Registration is ultimately our choice.

In Colorado Springs they took an abandoned elementary school and converted it to a homeschool academy which is taught by teachers and has a principal but the kids go there 1 day a week. They had after school sports and activities. Spend the money into something like this instead of requiring us to register or follow your standards for curriculum.

Please leave things the way they are.

Deanna Dotson

It isn't broke and it works better than you think it does.
