

02.23.2019

To all Education Committee Members,

I am writing in opposition to bill SB-874 as it pertains to the home instruction of children. Sections 17 and 18 of the new bill propose changes to current laws, including the requirement of parents to register with their local school district. I vehemently oppose any legislation in requiring the registration of home-educated children &/or their parents. These schools and districts in no way need this information, nor does it pertain to the education of the child(ren) in question.

Please continue to protect the freedoms and rights of our children and home educators, and do not allow these changes. I ask you remove these sections of your proposed bill.

Thank you for your time,  
Brittney Edo  
Milford
