

SB 874, SB457, SB738, HB 7150

I would like to state my strong opposition to these bills that aim at destroying our school district. I live in Bethany, CT and my children attend Amity Regional School District # 5. Amity provides high quality education; part of allure of the town is the school system. These bills that would eliminate our school district will not only adversely affect our children's education but also economical value of our town. It took our community a long time to build a successful school system and it would be a disaster to all of us to dismember it.

Thank you for giving me the opportunity to voice my opinion and I hope that Amity Regional School District #5 will remain intact.

Best Regards,
Ewa Florkiewicz
